EDUCATION

B.E. Computer Science and Engineering

2023 – Present

Sri Shakthi Institute of Engineering and Technology, Coimbatore

CGPA: 8.13

HSC, A.R.C. Matriculation Higher Secondary School, Coimbatore.

2022 - 2023

Percentage: 85%

AREAS OF INTEREST

- Cloud Engineer
- Data Engineer

SKILLS

- **Languages:** Python, SQL, JavaScript
- **AWS Cloud Services:** EC2, S3, VPC, RDS, IAM, Redshift, Glue
- **Analytical Tools:** Power BI, Power Query, Excel
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Figma

CERTIFICATIONS

- Data Analytics With Python – NPTEL.
- UI/UX on Figma - NoviTech.
- AI Dashboard Using PowerBI -Skill Nation

PROJECTS

Data Warehouse using AWS and dbt | AWS S3, Glue, Redshift Spectrum, dbt

- Designed and developed an end-to-end cloud-based data warehouse using AWS S3, Glue, Redshift Spectrum, and dbt by implementing a Medallion Architecture for scalable analytics.
- Built ELT pipelines and dbt transformations to clean, validate, and model raw financial data into analytics-ready fact and dimension tables with automated data quality checks.

Scalable Three-Tier Architecture on AWS | AWS EC2, ALB, Route 53, RDS

- Built and deployed a production-style 3-Tier Web Application on AWS using EC2, Application Load Balancers, Route 53, and RDS, ensuring separation of presentation, application, and database layers.
- Implemented traffic routing, load balancing, and database connectivity to create a scalable and highly available architecture, gaining hands-on experience in cloud infrastructure design and deployment.

Hospitality Analytics Dashboard | Power BI, DAX, Power Query

- Designed an end-to-end Hospitality Analytics Dashboard in Power BI by cleaning and transforming raw data using Power Query and data model with optimized relationships.
- Developed DAX measures driven by hospitality domain knowledge to analyze revenue performance, pricing efficiency, occupancy behavior, and booking trends, enabling business-focused insights.

ACHIEVEMENTS

- **Finalist, DecodeX Hackathon (Mumbai)** – Derived key insights from a real-world dataset and communicated data-driven recommendations using interactive visualizations.
- **Web3 Hackathon, IIT Nagpur** – Developed a blockchain-based invoice tokenization solution enabling secure, transparent, and traceable digital management of invoices.

PUBLICATION

- **Bus Pass Generator (Blockchain)** - International Scientific Journal of Engineering & Management (ISJEM), Vol. 03, Issue 12, December 2024, ISSN: 2583-6129
